

Tire Step

The 22" Tire Step unfolds and securely hangs over the front or rear tire of your vehicle, making this the perfect solution for loading skis on a ski carrier, loading cargo in cargo boxes, washing the roof or hood of tall vehicles. (Part Number: FGAT100-1)

Engineered Advantages:

- ProRac engineered aggressive non-slip tread plate to prevent slipping in wet, snowy or muddy conditions
- All steel construction for added strength
- Black powder coated paint finish for durability
- Collapsible for easy storage
- Fully adjustable to vary the height of the step
- Increase access to roof up to 22 inches
- Accommodates tire diameters of 22 inches to 33 inches with a sidewall width up to 9 inches

The 30" Tire Step unfolds and securely hangs over a tire of your vehicle. This step is designed for the larger tires found on class A motor homes, semi-trucks and large off-road vehicles. (Part Number: FGAT300-1)

Engineered Advantages:

- ProRac engineered aggressive non-slip tread plate prevents slipping in wet, snowy or muddy conditions
- Steel construction for maximum strength
- Durable black powder coated paint finish
- Collapsible for easy storage
- Fully adjustable to vary the height of the step
- Increase access height up to 28 inches
- Accommodates tire diameters of 30.5 inches to 46 inches with a sidewall width up to 12.5 inches
