

## Tent Trailer Performance Application Products

### Skewer Kit

Increase the capacity of your ProRac Performance Bike Carrier by adding an additional skewer kit. Each skewer kit contains everything you need to add two additional bikes to your Performance bike carrier.

- Includes two skewers and four securing straps
- Carry up to a maximum of six bikes through the use of additional skewer kits
- Skewer is extruded from aluminum and powder coated for durability
- Mounting hardware included
- Sold in pairs

### Wheel Holder Kit

These wheel holders are a perfect solution if space is an issue to store your front wheels. They mount to the ProRac Tent Trailer Bike Rack load bar.

- Provides secure way to transport front wheel
- Installs easily on load bar by utilizing our t-bolt and t-slot design
- Mounting hardware included
- Sold in pairs

## Tent Trailer Performance Application Products

### Tire Pad Kit

The ProRac Tire Pad provides added protection to your trailer roof by displacing the rear bike tire weight. The protective Tire Pad is made of durable ABS plastic with a skid resistant foam base. The average tire exerts 13.5 PSI to the tent trailer roof. The use of this pad reduces the PSI to approximately 0.37 PSI. Displaces weight of rear tire reducing the PSI by a factor of 36.

- High impact ABS plastic construction for durability
- Neoprene base eliminates scuffs or scratches to the tent trailer roof
- Sold in pairs

### Replacement Bike Strap Kit

ProRac original bike strap replacements ensure your bikes will arrive at their destination securely fastened.

- Nine foot black nylon web straps secures your bikes
- Two straps per kit
