Tent Trailer Proformance

The most versatile tent trailer bike rack on the market, the ProRac Proformance bike rack mounts directly to the tent trailer frame eliminating the need to drill into the roof. Components are made of a rugged aluminum alloy with a tough powder coat finish. Fork mounting your bikes to the specially designed skewers provides the most secure way of transporting your valuable bicycles. Incredibly easy to load and unload your bikes. Telescoping uprights allow the rack to stay attached to the trailer even when the front tent trailer bed is extended.

Engineered Advantages:

- No drilling into tent trailer roof avoids warranty issues and leaking
- Telescoping uprights are fully adjustable to achieve the correct height for your tent trailer
- Wide 80" load bar accommodates up to six bikes
- Load bars have an integrated T-SLOT providing a clean looking and secure mounting method for bike skewers and wheel holders
- Installs easily with simple hand tools
- Universal fit accommodates most tent trailer designs
- Fork mounting bikes is the most secure method to carry your valuable bikes
- Convenient front loading design is easy and accessible
- Available in a 2 bike or 4 bike model (expandable to 6 bike total capacity)
- Patent Pending
